Water Treatment Disinfection Process

The City of La Feria Water Treatment Plant is temporarily changing the disinfection process to include the use of free chlorine. The temporary change in the disinfection process will be effective Monday, June 6, 2016 through Sunday, June 26, 2016.

This change introduces a different method of disinfecting the entire water treatment and distribution system to improve the overall quality of water supplied to our Community.

The regular disinfection process will resume Monday, June 27, 2016.

If you have any questions or concerns about this temporary change please contact Water/Wastewater System Director, Beto Ureste at 956-797-2261.
